For The Bomber Finally The Best

the most innovative can for bombing from montana celebrates the release day. This can has left a long journey of development. The outcome is amazing. The best opacity and the perfect handling is a revolution for the new kind of bombing. For a bomber it is finally a tool, which meets his claim.

Overkills, a bad opacity and long drying-periods are finally over with the release of the montana-platinum.

20 colours, including new metallic shades with intensive opacity as well as shiny colors, are now part of the color-sheet of the montana-platinum.

Taste it!
