

SATAjet® 3000 K™

German Engineering

Spray Guns | Cup Systems | Breathing Protection | Air Filtration | Accessories

## For Large Surfaces

- High surface efficiency due to material supply from pressure tanks or via double diaphragm pumps
- Wide, smooth and uniform spray fan for perfect finishes at high application speed
- Extremely sturdy version with axial round/flat spray control
- **Optional: fluid tip and paint needle with lifetime prolonging surface**

# SATAjet 3000 K – for high quality finishes

This high efficiency spray gun is especially suitable for painting large surfaces. Finest material atomisation and the large spray pattern provide perfect finishes and uniform material distribution.

Robust design, low maintenance and ergonomic balance make the SATAjet 3000 K the perfect spray gun for permanent use in both industry and craft.

## Additional product features:

- The "Super Fast": RP® high pressure technology for maximum work speed and transfer rates > 65%
- The "Super Saver": HVLP low pressure technology for especially high transfer rates significantly exceeding 65%
- Application of all paint systems with sprayable viscosity – including waterborne paints
- All material passages are made of stainless steel and are therefore corrosion-resistant
- Extremely robust gun model with axial round/flat spray control
- Ergonomically balanced, easy handling of the control elements
- Can be retrofitted with SATA adam 2

## Versions

Version   Air Consumption	Nozzle size

SATAjet 3000 K RP 430 NI/min at 2.5 bar	0,8	1,1	1,3	1,5	1,7	2,0
Pressure fed spray gun with material connection G 3/8 male thread	93385	92924	93393	-	96164	96172
	92932	93336	93344	93351	93369	93377
Nozzle set	92783	92791	92809	191379	92817	92825
	92494	92502	92510	92528	95422	95356

Spray guns and nozzle sets with lifetime prolonging fluid tip and paint needle surface are available upon request.

## Accessories

92031	SATA material pipe G 3/8	
38265	SATA strainer 60 msh, G 3/8	
91140	SATA material coupling with plug-in nipple G 3/8	
91157	SATA material coupling with plug-in nipple G 3/8 and strainer 60 msh	
160846	SATA adam 2 - the digital air micrometer to retrofit SATA spray guns	

Hose pairs available upon request.
